CT STEP® - PREPARING FOR MARTYN'S LAW

A simple, structured route to counter terrorism preparedness

CT STEP® is a practical, online platform that helps organisations prepare for **Martyn's Law (the Terrorism Protection of Premises Act 2025)**.

Built by senior counter terrorism and crisis management professionals, CT STEP® enables organisations to understand terrorism risk, take proportionate action, and clearly evidence compliance — **without the cost or complexity of traditional consultancy.**

Designed to be accessible and efficient, CT STEP® supports organisations of all sizes to demonstrate preparedness with confidence.

The Challenge

Martyn's Law places new legal responsibilities on organisations to strengthen counter terrorism preparedness at publicly accessible premises. Many existing approaches are:

- Time consuming and difficult to interpret
- Inconsistent across sites
- Hard to evidence and maintain over time

CT STEP® replaces lengthy guidance and consultancy with a **clear, digital, risk based process** that can be completed in **around 60 minutes**, creating a consistent and defensible approach across single or multiple locations.

What is CT STEP®?

CT STEP® is a **self service counter terrorism risk assessment and planning platform** that guides users through a simple, four step process.

It translates complex legislative and security requirements into clear, operational actions, while creating a **permanent, date stamped audit trail** to support governance, assurance, and regulatory scrutiny.

The platform complements government and SIA guidance and remains aligned with current threat information and recognised best practice.

Key Features & Benefits

**Rapid
Compliance**

**Self-Service
Platform**

**Permanent
Audit Trail**

**Multi-Site
Oversight**

**Consistent &
Repeatable**

**Clear, Actionable
Guidance**

**Ongoing
Updates**

The CT STEP® Four Step Model

1. Understand

Gain a clear view of the terrorism threat relevant to your sector.

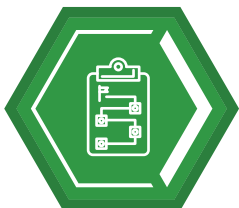

- Concise and detailed assessment options
- Plain English insight for non specialists
- Focused on live, relevant threats

2. Evaluate

Assess your premises to identify vulnerabilities and potential consequences.

- Quick site level evaluation
- Highlights strengths, gaps, and priority risks
- Informed by trusted policing and government sources

3. Plan

Create a practical, proportionate security plan.

- Achievable actions that reduce impact during an incident
- Covers communication, evacuation, invacuation, and lockdown
- Plans are easy to update, share, and automatically date stamped

4. Activate

Embed preparedness across your organisation.

- Define roles and responsibilities
- Record staff briefings and training
- Evidence how plans are implemented and maintained

Who CT STEP® is For

CT STEP® is designed around the standard duty requirements of Martyn's Law and is particularly suited to:

- Publicly accessible locations with 200+ persons
- Retail, hospitality, education, healthcare, venues, and public spaces
- Organisations managing multiple sites that require consistent oversight

It also provides a strong foundation for enhanced tier duties and demonstrates proactive corporate responsibility.

Why Choose CT STEP®?

CT STEP® offers a **simpler, faster, and more transparent** route to Martyn's Law compliance. Built by counter terrorism professionals, it enables organisations to protect people and places with consistency, clarity, and confidence — turning complex legal requirements into practical action.

Assurance & Confidence

CT STEP® supports boards and senior leaders by providing:

- A defensible, auditable approach to terrorism preparedness
- Transparent records of decisions, actions, and staff readiness
- Evidence of ongoing review, oversight, and accountability

Security plans become **live, usable tools** — not static documents.
